

RISE OF THE EMPIRE FAQ 1.0

GOALS

1. When can I achieve the Quest, only during my turn as an additional action or also automatically during the Production phase?

If there is a way for Quest to be completed during the Production phase it can be achieved automatically in both ways.

2. Quest of Stature - each time when I resolve action associated with the one stated on card I advance matching Quest token, if I have feature which also moves my Quest token does it mean that I have to resolve 1 less action for each movement of Quest token by this Feature?

Yes, for example if cards says raze 4 grey and you have feature which moved your Quest marker by 2, you only need to Raze 2 more to complete this Quest (of course if you will move token only thanks to this feature and reach 4th space it's completed without even razing any grey).

PROVINCES

1. What to do with Provinces which provide Technology tokens or Blessing tokens and I don't have this expansions?

You can just remove all cards that have tokens you don't have. In case you'd wonder why would you like to use them if you have these expansions but don't actually play additional factions - remember, you can change your faction deck between any games so you can add/change 10 cards from this expansion to your faction deck to create even more cohesive engine!

2. Are Provinces treated as Common cards?

No, this means that card effects stating: remove 1 Common  doesn't target Provinces.

3. Can you count in Provinces of a certain colors (f. ex. to achieve Quests)?

Yes.

4. If Province will be removed from my Empire (in any way) does it still makes me lose 5  at the end of the game?

No

EMPIRE SHEET

1. What does color code on Progression tracks mean?

Green color indicates that these bonuses are resolved at the beginning of the game, yellow color indicates that these bonuses provide Progression tokens, red color indicates that these bonuses are resolved at the end of the game.

INVENTIONS

1. Sailing (ROTE062)

Max. 4. indicates 4 times per game (you may track that by placing any piece from general resource and place it each time you use this card).

CARDS FROM OTHER EXPANSIONS

1. Island Port (JAP060)

You don't gain points for colors of Inventions with this card.
